

## 2010 CALL FOR SPEAKERS

EMS EXPO is Michigan's premier field provider education seminar, and the 2010 EXPO is shaping up to be one of the best. As the conference heads to the DeVos Center in Grand Rapids, and consolidates the program of offerings, we are inviting EMS Instructors and providers from all types of services, Emergency Management and public health professionals, law enforcement, and clinical researchers to present lecture programs at this great conference. EXPO is a fantastic way to showcase our agency or department, and a great way to interact with MS providers from across the state.

Michigan EMS providers place great value on presentations made by industry experts and leaders from related services and industries.

Possible topics for EMS EXPO are include ALS or BLS topics, clinical research, clinical innovations, public health or emergency management topics, EMS in interaction with law enforcement/special situations, assessment and/or treatment of special patient populations, or any other fresh topic that is relevant to EMS providers.

This year the educational offerings will be broken into six distinct tracks. While the attendees are free to select different sessions throughout the conference, the educational sessions will be grouped by track in the promotional material and on-site coordination. We are seeking pertinent educational content aimed at EMS providers of all license levels, including those who have RN licensure. The tracks that are being utilized to

delineate the topics are

- MFR-BLS Clinical
- ALS-/RN Clinical
- General Audience
- Professional Development (and "other")
- Instructor Coordinator
- Practical scenario stations

The 2009 EXPO will be held April 22-25, 2010 in Grand Rapids. Speaker packets (CV and attached presentation outline) are due by August 30. EXPO presentations are generally one hour long, although may be combined into two-hour blocks depending on the presentation. Additional information may be obtained by contacting Kolby Miller via e-mail at [kmiller@medstarambulance.com](mailto:kmiller@medstarambulance.com). Speaker packets can be submitted to the EMS EXPO office via email at [execdir@emsexpo.com](mailto:execdir@emsexpo.com), or via fax to 517.372.1731. Please contact the EXPO office or Kolby Miller with any questions regarding speakers, speaking, topics needed, or any other questions or concerns.

Don't miss this opportunity to join hospitals, health systems, public health, emergency management and EMS personnel from across Michigan in providing high-quality education to the pre-hospital providers from your area and beyond. EMS EXPO 2010 promises to be an excellent venue for education, networking, and advancing the treatment and transportation of emergency patients and the professionals who serve them!. Over 1000 paramedics, EMTs, supervisors, and agency leaders will converge on Grand Rapids for this event, and will take knowledge, excitement, and new contacts back to their respective agencies.

Please identify the speakers from your agency today, so that the speaker packet and other required documents can be prepared and submitted. With only 6 tracks, speaking opportunities will be limited.

See you in Grand Rapids!!
